Jacks Defeat Shelby All Stars by 41-31 Score

Raymond fans were treated to a nice exhibition of Basketball last Saturday night at the Opera House, when the Union Jacks played hosts to the Shelby All Stars in a game which ended 41-31 in favor of the local squad. The hockey game in Lethbridge took all the Lethbridge crowd and quite a number from Raymond so that the attendance was not as great as usual during the past winter, but the hall was well-filled and the crowd went home satisfied with the evening's games.

The preliminary was an exhibition between the Raymond lders and the Magrath High School, which was won by the lders by a 45-33 score after 40 minutes of interesting play, which however, was not as hotly contested as most of the games this winter have been between these two teams.

The main game opened with both teams playing carefully. Dick O'Brien, forward of the Jacks, was ill and unable to participate and Turner was moved from the guard line to take his place, and turned in a fine game, teaming up very well with Kirkham, and incidentally, Turner was high scorer of the game with 13 points to his credit. Nalder, in the first half, and West in the second half, made up the local lineup, with Kirkham, Fairbanks, Nilsson and Turner, and the boys played a fine game checking closely, and scoring from almost any angle of the floor.

Stori and Talbot, were the "big noises" of the visitors. These two were plenty fast and good shots at the hoop, but they were unable to be in the right place all of the time, and the locals held them away from the scoring position, and spoiled their deadly aim. The visitors were all nice players, quick in passing, going right into their opponents, and either forcing immediate delivery, or else making a toss up necessary, so that the game moved swiftly and the play switched rapidly from end to end. The visitors were quick in breaking away from a set play, and never missed a chance to intercept a pass unless it was impossible for them to jump and reach it.

Both teams are hard to check, and they made the game interesting from the first to the last. The Jacks took the lead for the first 15 minutes of play, and then the visitors were out in front for a few minutes, and the half time whistle found the score 20-18 in favor of the Jacks. After the recess the battle continued, but West going in for Nalder, and the visitors having no subs made the Raymond quiet a little the stronger, and while Shelby scored 13 points in this half, Raymond made 21, West sinking the goobon for 12 of them.

Earl Zern and Roy Woolley had the whistles for the game and the score was as follows:

SHELBY—Stori, 8; Michaels 4; Olsen 5; Landry 4; Talbot 10. Total 31.

JACKS—Turner 13; Kirkham 4; West 12; Nilsson 3; Fairbanks 6; Nalder 3. Total 41.

NEWS NOTES

The conferences on the streets these days are divided between Social Credit and the best methods of farming. Both topics cause a lot of argument.

The lders are very much in the fight for intermediate honors, and will make the Lethbridge Hornets go some to down them and keep them out of the district playoffs.

Pres. Wood Here, Sun. Evening Mar. 24

The two Raymond wards will meet jointly in the Stake House on the fourth Sunday evening of this month for the Genealogical program of the month, and President Wood of Cardston will be the speaker of the evening. There will also be a good program of musical numbers, and an enjoyable evening is assured. Everyone is invited to be present. The meeting will commence at the usual time, 7:30 p. m.

CALGARY TICKETS NOW ON SALE

Railway tickets for the Boy Scout trip to Calgary are now on sale and may be purchased at the Town Office. Those in charge of the excursion would appreciate it if those who are going would get their tickets as early as possible so that all details of arrangement could be attended to.

The opportunity to meet the Chief Scout Lord Baden-Powell and his good wife is a rare one indeed, and it is not likely to be again afforded. Scouts as the Chief is quite elderly. Because of this and the lasting effect this visit would have on the boys, it is hoped that every family who have sons old enough to go will use all their efforts toward providing so that the local Scouts may be there and get the benefit of this gala day.

Ervin J. Fawns, District Commissioner will be glad to supply any further details regarding the trip.

NEWS NOTES

A large number of singers from Raymond were in Lethbridge on Sunday attending a church practice.

The weather this week has been next to perfect. Cool but not cold nights and warm bright days, with roads and fields drying nicely.

Mrs. C. H. Mehew left Monday morning for a two months visit with friends and relatives in Salt Lake City and other Utah points.

LIBERTY'S CANADIAN HALL OF FAME No. 2

Dr. Allan Roy Dufour, world famous as the man who brought into the world and kept alive the only child of Mr. and Mrs. Dionne. Fifty-four years old, five feet six tall and looks shorter because of baggy clothing. Would rather be what he is at Calander, Ontario, than the highest paid obstetrician in New York. Charged the Dionne \$15 for the job over at their house—\$3 each for the five of them. That's his rate for a baby—\$3. Has brought 1,500 babies, mostly French Canadians, into the world, making \$4,800 worth at the \$3 rate. None of his mothers have ever gone to a hospital. One night he drove four hours through a blizzard to rescue a woman shot in the brain. She was frozen and unconscious, but he saved her life. Three months later he delivered her of a baby boy. Both lived. Likes newspaper men and is amused at the publicity the Dionne job brought to him. Thinks men living without women or women without men absurd, unhealthy, unenviable. Expects to live thirty more years.

What's sauce for the goose is sauce for the gander. Favoritism isn't defensible. As the government refunded \$8,403.15 to applicants who were outlawed by time, there's no reason why every other person shouldn't apply and have their overdue gasoline and fuel refund sent to them—or know the reason why.

The Parliamentary Show

(By J. S. Cowper)

Now we know the worst — or do we

Las Friday Hon. J. Russell Love brought down his Budget as Provincial Treasurer. He estimates an income for the ensuing fiscal year of \$15,331,744.2, with expenditures of \$15,302,000.04. If it wasn't for \$29,253.57 required in addition for sinking fund requirements on provincial debts, it would be a balanced budget. Alas despite an increase in the gasoline tax from 6 to 7 cents a gallon, it will still be \$699,479.36 short of requirements. That means the province will have to borrow that amount in order to keep on paying interest on its present borrowings.

Old age pensions call for \$68,000 increase. An item of \$150,000 for election expenses denotes a coming general election, probably in mid-June. The province has settled for \$28,000 the judgement which was obtained by Mr. Powlett of Calgary for mental injuries to his son in a "hazing" ordeal as part of his higher university education. In his speech the Provincial Treasurer held out hopes of Dominion aid for refunding the \$131,000,000 debt of the province.

More light has been shed on the coming of Major C. H. Douglas as a result of Liberal efforts to table the correspondence between Premier Reid and Major Douglas. Pro mthis it appears that the Social Credit inventor is to get \$9,000 instead of \$5,000 as at first announced, and assurances of radio and press assistance. He cannot arrive before mid-May and stipulates for his fee in advance. The House has invited Mr. Aberhart to expound the Aberhart plan, though the speaker of the Legislature took the platform in Edmonton a few nights ago to denounce the Aberhart plan as unstable and mischievous.

If Major Douglas cannot arrive till mid-May he and his plan cannot well be factors in a mid-June election.

One of those useful questions in the public interest that may mean dollars in the pockets of many people was asked in the Legislature by H. J. Montgomery, Liberal member for West.

Under the law of Alberta all such refunds must be applied for within six months from the date of purchase. Judge of the surprise when the Government had a list of persons who had during 1933 and 1934 received refunds totalling \$8,403.15 contrary to the provisions of the Act.

Another piece of forward-looking public enterprise was advocated by Frank R. Falconer, Liberal member for Athabasca. In view of the reduced purchases of Canadian wheat by Great Britain, and the need to encourage the teeming millions of China and Japan to change from a dear and uncertain rice diet to a cheaper, stronger and more staple wheat diet, Mr. Falconer urged a comprehensive scheme to advertise the superior merits of

Canadian wheat, backed by the governments of western Canada and the Dominion. Japan has opened booths to explain for her own economic reasons to her people how best to prepare wheat foods, and Mr. Falconer thinks the time is ripe for the government to aid in creating markets abroad for Alberta wheat and flour.

The Agricultural Committee of the Legislature has been hearing university experts on scientific methods to determine exactly what debt a half section or more of land can bear in different parts of the province. Professor Wyatt is to apply investigations made by the University of Saskatchewan on Saskatchewan farms in various soil divisions to areas in Alberta with similar soil and climate conditions.

Any deduction authorized by statute on farm debts will have to apply also to school lands under purchase or that have been relinquished during the past few years, deputy minister John Harvie told the Committee. It will be necessary to have a Dominion Act passed to reduce the principle amounts due for the purchase of school lands, because the contracts were made with the Dominion Government.

Before the Agricultural Committee rises it will probe the question of relief, including the rural municipal districts and especially the bush areas of the province, where relief allowance is said to be as low as \$1 per head.

Hon. Hugh W. Allen, minister of municipal affairs said that of the \$8,800,000 spent by Alberta on relief, half had been used for direct relief and the other half for relief works. With Dominion and municipal contributions added about \$22,000,000 has gone on relief in the province.

Relief applicants, as well as relief administration officials, are to be heard by the Committee.

But for the burden of relief municipalities would have been freed from the 10 per cent levy for old age pensions, said Premier Reid when H. J. Montgomery, Liberal M.L.A. for West, moved to exempt the municipalities from making this contribution to old age pensions. The 10 per cent levy is the same today when the Dominion pays 75 per cent of the total as when the Dominion paid only 50 per cent.

Two northern Liberals were prominent during the past week. L.A. Giroux of Grouard urged a substantial reduction of the royalty on furs, and J. M. Dechene of St. Paul urged the building of a main highway through the Northland from St. Paul to the Saskatchewan boundary by way of Sturgeon, Whitford, Beaver River and St. Paul.

Hon. J. J. McLellan, Minister of Highways said that a northern road would be placed on the government's program, though he could give no assurance that it would be proceeded with this year.

A Special Day at the Temple is being held today for the Relief Societies of the three Canadian Stakes.

Gordon Ruten is in Raymond now with his folks, after spending the winter in Vulcan where he played hockey with the Vulcan team. He expects to spend the summer here.

Only the greatest actress of her time could breathe the breath of life into the most pathetic heroine of ALL time—Mrs. Katherine Hensburn in "The Little Minister" at the Capitol, Friday and Saturday.

Our Trip to Salt Lake City

Raymond Beet Growers Meet

The Annual meeting of the Raymond Beet Growers Association was held in the Second Ward Chapel Wednesday afternoon, with the Pres. J. F. Salmon in the Chair, and about 150 growers present.

The freight rate adjustment came in for considerable discussion, and while the reduction in rates was greatly appreciated, yet it seemed to be somewhat unfair as between growers close to the mill and those farther away, and the matter will be referred back to the proper officials to see if a fairer rate can be worked out. The siloing price being raised from 40 to 50 cents per ton met with unanimous approval.

A resolution was passed encouraging the expansion of the beet industry and asking that the 1c processing tax be passed onto the growers of the beets. The 1935 contract was discussed at some length, and while no definite action was taken, there were several points that the local delegation will bring up for discussion at the Lethbridge meeting today, with recommendations from the local association that they be altered to give the grower and labor a little bigger returns for their share of the crop.

J. F. Salmon was re-elected President, and William A. Anderson Secretary, and the same directors with the exception of one or two who withdrew, and others were elected to their places.

Miss Mae Snow Passes Away

Mae, daughter of O. H. Snow, member of the Taylor Stake Presidency and Sec-Treas. of both Town and Municipality, passed away Wednesday morning in Cardston, after years of illness due to heart trouble. The past few months Mae had stayed with her sister Norma, at the nurses home in Cardston where her sister had cared for and given her every assistance that was possible.

Mae was loved and respected for her patience and her cheery disposition, which through the long years of her suffering had never become bitter or harsh. In 1925 she went on a mission for the L.D.S. Church, but was forced to come home because of her weak heart, and since that time she has taught school several terms, but has been kept out of regular employment a great deal of the time.

Funeral services have been arranged for Sunday at 2 p.m. in the Stake House with the Rev. Ward Bishop in charge. The sympathy of the community is extended to the sorrowing father, and brothers and sisters in their sorrow.

MUNICIPAL COUNCIL MEETS

The regular meeting of the Municipal Council was held in the Town Hall Wednesday at 2 p.m., when the new and re-elected Councilors were sworn in. After this, N. W. Peterson was elected as Reeve, and the meeting settled down to business.

It was decided to have a new assessment on Land Values for this year, and this was left to the Sec-Treas. to look after. The Mill Rate for local improvement was set at 5 mills for the current year.

The Council also decided to buy a Caterpillar engine for their road work and it is probable they will not use the elevated grader which they are now using on a rental basis.

The passing of the monthly

By Dean Holland

We left Raymond for Salt Lake early Sunday morning and enjoyed a very nice trip through to Dillon, Montana. Aside from a little snow and rain the roads and travelling was perfect. From Dillon we went right on through to Salt Lake Monday to find ourselves in the midst of winter. The people's first winter weather they had of Salt Lake said it was the best this year, but it seemed rather funny to leave sunny Alberta and run into such weather.

Tuesday was spent resting up from the trip and preparing for tournament play.

Wednesday night we played our first game before a very large crowd of fans. Before the game they gave us one of the most spectacular welcomes I have ever witnessed. The Deseret gym was all decorated in bunting and streamers. We were marched down the middle of the playing floor with our opponents from Berkeley, Cal., led by a bugle corps and some of the home guard with a large Canadian and American flag. We halted in the centre of the floor and the crowd and ourselves sang O Canada and then the Star Spangled Banner, then we were introduced to the officials of the Mutual, President Heber J. Grant and Governor Blood. Governor Blood gave us a very nice welcome speech followed by a speech by Pres. Grant. We were then presented with a tournament medal each and then we broke up at the end of a bugle call.

The first game was nothing to talk about. We were plenty nervous after the ceremonial and we hit a very fast but small team—not offering excuses or anything—but we could not seem to be able to hit the hoop even with a set up, of which we got plenty. We were outclassed throughout the whole game and lost by a score of 18 to 37.

Thursday we played our last game with Boise, Idaho, and they eliminated us from further play, beating us by 3 points.

The balance of the time we spent seeing Salt Lake and personally believe we fared much better at seeing the city than we did playing ball.

In our travels we visited Radio Station KSL, and the manager showed us through the entire studio and invited us to attend their Sunday night broadcast from the Tabernacle. We were all present at the broadcast, and Mr. Glade, the manager of the program, gave us a nice talk and sent out a message to all our friends in Alberta. No doubt many from here heard the broadcast and if they were as thrilled as we were, they were just plenty thrilled.

We left for home Monday noon and went as far as Idaho Falls Monday. Tuesday we pushed the remaining 600 miles and arrived at Raymond 11 p.m.

In closing I wish to say that we were never without a hearty welcome. Wherever we went in Salt Lake the L.D.S. people were certainly very nice to us, and I take this opportunity to congratulate & thank them for their extreme kindness to us.

A very enjoyable farewell who is leaving this week for a last Tuesday evening after Mutual in honor of older Kay Reed was held in the High School six months visit to the Mexican Mission. Dancing and refreshments, and a program of short speeches occupied the time of the evening.

Bills completed the business of the session.

CENTRAL BANK OF CAN.
ADA NOW OPERATING

Commencing last Monday, the Central Bank of Canada opened its doors as a business institution in the Dominion. How much do the people of Canada know regarding the agitation leading up to its organization, and what it is hoped that the new Bank will accomplish.

For the present, branches of the Central Bank are located in the principal cities across Canada, our nearest one being in the city of Calgary. So far as the general public is concerned, the Central Bank is not functioning as a banking institution to individuals, rather as a depot for registration of Government bonds, and an exchange depot for dilapidated currency. When the bank opened Monday it released a new issue of Dominion one and two dollar notes of the smaller sizes, which were matched by issues of new bills in the larger denominations by the chartered banks; so that now as fast as the change can be effected, the present large size bills will all be taken out of circulation and the smaller bill, approximately one-half inch narrower and one inch narrower and one inch shorter than the present issue will be used.

It is hoped that through the purchase of securities of various kinds, and the selling of them on the open market; buying when the market is draggy and thereby putting more purchasing power into circulation, and selling when boom times are approaching and closing the gates of credit, that a more even pulse will be kept on the financial condition of the Dominion. Then, too, the interest rates will be maintained at a new, low level, and long time loans where conditions warrant

will be made at rates that will be but a small fraction of what people have tried to pay in the past for use of credit, which is all that we have been operating with.

All in all it would appear that there was a great and almost unlimited field for the Central Bank to function in. That it will require good sound judgment, and a background of service, without profit, goes without saying, and the effects of its operations for the next few years will be watched with a great deal of interest by supporters and objectors alike, the one for its strong points, and laudatory accomplishments, the other for its faults and weaknesses, for material with which to evelastingly flay those who worked and fought for its establishment. Such at least seems to be the general idea of co-operation in Government circles, viz. to co-operate to tear down the party in power.

The new bank has been organized in answer to the demands of the people, and in the hopes that it will solve a great many of the problems which do and will confront us. It behooves all good Canadians regardless of party to support and uphold their Central Bank, until it at least has time to prove itself.

NEWS NOTES

Wilford Shields of New Dayton was a business visitor in Raymond Tuesday.

Frank Quinton was here a few days this week from his home in Glenwood.

Boothe Card was a Lethbridge visitor Tuesday after a load of gas for the Service Station.

Farm for Sale

TENDERS marked 33933 addressed to the Clerk of the Supreme Court, Court House, Calgary, will be received up to 11 o'clock in the forenoon of Saturday the 30th day of March A.D. 1935 for the purchase of the S.E. 1/4-9 and S.W. 1/4-10-5-20-4th containing 320 acres, reserving unto the Crown all coal and unto The Alberta Railway and Irrigation Co. all other minerals.

Location: 9 miles from Raymond, 1 1/2 miles from school. Soil: Loam on clay subsoil. 306 acres in stubble. Good water supply. The property is fenced. There are no buildings.

TERMS OF SALE: 5% with tender, 20% on acceptance of tender, 25% in 1 year, 25 1/2% in 2 years and 25% in 3 years from the date of the acceptance of offer with interest at 8% per annum or all cash at the option of the purchaser.

In all other respects the standing conditions of sale will apply.

Tenders must be accompanied by marked cheque for 5% of the offer which will be returned in the event of non-acceptance. No tender necessarily accepted.

For further particulars apply to Ballachey, Burnet & Heseltine, Solicitors, 801 Lancaster Bldg., Calgary, Alberta.

Dated at Calgary in the Province of Alberta this 27th day of February A.D. 1935.

THE PLAIN WOMAN

The only time a plain woman needs pity is when she is resigned to her fate. Resignation is no longer a virtue, it is a sign of laziness.

This is a day of accomplishment in every sphere. And the modern woman who considers herself plain has only one sensible course open to her; she must analyze herself and then proceed to eliminate her defects and play up her natural assets.

Those who have lost their courage and are apt to think their case a hopeless one should take a lesson from a gallant woman of the thirteenth century. Her name was the Duchess of Wurtemberg and she was known as the ugliest woman in Europe. But not for one moment.

The Recorder

TO DEVELOP A NATION'S RESOURCES

In 1842, following the union of Upper and Lower Canada, when the Bank opened a branch at Toronto to succeed the agency there, and established offices in nine other cities of Upper Canada, the Honourable Peter McGill, then president of the Bank, explained why the directors had entered upon a policy of establishing branches or agencies in the then western province:

"The Legislature having conferred on the Bank important privileges, and authorized the creation and employment of a large capital, the Board, instead of concentrating it all in the large cities, felt it to be their duty gradually to extend

throughout the province the benefits derivable from the use of it by the establishment of branches and agencies at such points and in such localities as appeared to them best calculated to encourage and assist the agriculture and commerce of the country, to develop its resources, and to promote the increase of its exportable productions..."

Even before the union of Upper and Lower Canada, the Bank sought constantly to encourage those factors in trade which would contribute effectively to the up-building of the country—a purpose which is as strong today as ever.

EXPERIMENTAL STATION, LETHBRIDGE

WEEKLY LETTER

Brooding Baby Chicks

Brooding baby chicks by artificial means is comparatively simple. The main essentials in achieving success are, warmth, cleanliness, ventilation without draughts, sunshine and regularity on the part of the caretaker. Following is some timely information dealing with these factors supplied to your writer by the poultryman at the Lethbridge station. Feeding is scarcely less important but this will need be dealt with in another letter.

The brooder houses used here are 10 ft. X 12 ft. with walls 5 feet high at the back and 7 feet in front. The walls are all double boarded, lined with building paper and the spaces between the studdings packed with straw. On the average farm where a special brooder house may not be available some suitable room in another building may be used providing it is entirely free from draught and properly ventilated. In the brooder houses used here at present ventilation is provided

by the use of cotton windows which make up one-third of the front wall space. Another third is glass or glass substitute and a sun porch made of one half inch wire netting is built on the front of each house to allow the chicks out on fine days.

Coal brooder stoves are used to provide heat. This is easily the cheapest and most dependable method of brooding. Adequate size is a main consideration in selecting a stove. The experience here has been that the capacity of most if not all coal brooder stoves are greatly over rated so far as conditions here are concerned. For this reason, where say 250 chicks are to be brooded, a stove of at least 500 chick capacity is used. This is important because the larger stoves are much easier to regulate and a much more constant temperature may be maintained. A 1000 chick brooder stove for example, requires attention only two or three times a day, while a 500 chick stove needs to be attended to 4 or 5 times and a smaller stove requires almost constant attention.

A vital part of the coal broo-

der stove is the thermostat wafer, the hollow disc that contracts and expands with change of temperature to control and maintain a constant temperature. This is replaced every year at this station. Its function is too important to take chances with an old instrument that is apt to go out of order when most needed.

Before the brooder house is used it is thoroughly cleaned by scrubbing the floors, windows and lower parts of the walls with a lye solution made by putting about one-half can of lye into five gallons of cold water. A long handled broom is used in washing and the person doing the work wears rubbers or rubber boots. A hand brush is not used because the lye solution is very strong and would injure the skin. It needs to be handled carefully to avoid possible injury especially to the eyes.

Three days at least before the chicks are expected the brooder stove is started in order to dry out the floors and the walls. At the same time the outside of the building is banked with straw and manure. Dry straw is put in the house the day the chicks are put in. The temperature, taken at the edge of the hover is kept as nearly as possible between 90 and 95 degrees when the chicks first arrive. This temperature is gradually reduced about one-half a degree a day until the chicks are 5 to 6 weeks old, and no longer need artificial heat.

Water is supplied in one-gallon earthenware fountains one for every 50 chicks, and the feed is given in hoppers that are designed especially to keep the feed clean and prevent wastage. A number of very good patented devices have been used here and a satisfactory home made hopper used is made with three laths using one for the bottom and the other two for the sides each being nailed on to the top edge of the bottom lath. By sloping the sides a little, the trough inside will measure somewhat less than one inch at the bottom and about 1 inch at the top. A wider trough would allow the chicks to waste too much feed. One-half inch of feeding space is allowed for each chick.

THE PLAIN WOMAN

ent did she resign herself to fate. Instead she worked to develop a clear, soft skin to offset her homely features, using oils and herbs available at the time. Also, she developed a reputation for charm by being sympathetically interested in other people. Thus at middle age she was rewarded by having the handsomest youth in her kingdom fall madly in love with her.

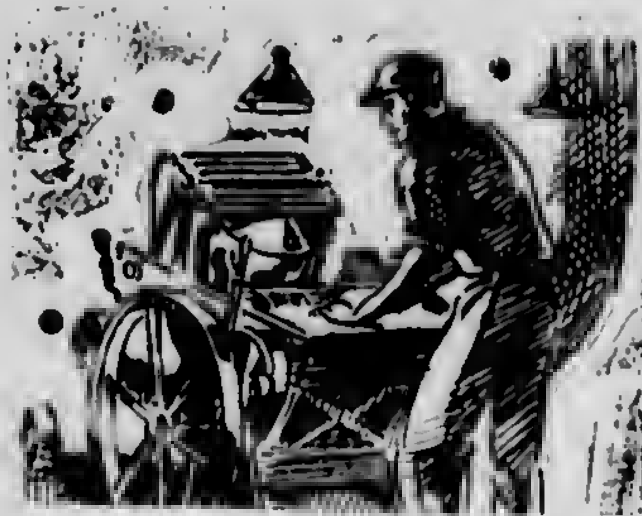

What we call beauty can so easily be a mere matter of a good complexion and a graceful carriage. The latter can be developed by taking long daily walks, swinging the legs from the hips, and breathing in deeply. This will keep down your weight and develop an attractive, rhythmic walk.

And now for the plain woman's dearest ally — makeup. Every woman should thrill at the artistic opportunity afforded by these modern aids to beauty. What miracles can come with a touch of lipstick, a whisper of rouge & a little black to give added length to short, and coarse eye lashes. Makeup that gives you an artificial appearance is vulgar and has nothing to do with beauty. Did you know, for instance, that the long face can be made charmingly oval by applying rouge low on the cheeks and covering a rather large surface. And the round face can be made longer by placing the rouge high up on the cheek bones just beneath the eye and close to the nose.

NEXT: YOUNG AT 40.

For expert advice on your beauty problems, write Woman's Interest Syndicate, 126 Bloor St. W., Toronto, Ont.

The Idlers and the Lethbridge Hornets are tied for first place in the local division of the Intermediate League, and the first of a 3 game tie breaker will be played here Friday night this week. It should be good. See it.

Send in your news items. We appreciate getting them, and they add reader interest to the paper.

Baby beef is commencing to move now, and the price is a good average. One feeder last week said he rather enjoyed day, taking Mr. and Mrs. A having buyers come and make him offers, instead of having to hunt up the buyers, as had been the custom the last few years. Their children here.

Auctioneer J. W. Newby left for Calgary after his sale here Wednesday to attend to business matters in the northern city.

News Notes

We can give you service and satisfaction in all your printing requirements. Ruled forms of all kinds can be obtained on short notice.

Ray Knight left Friday morning to attend the Annual Meeting of Southern Alberta Stampers being held in Calgary. Ray is president of the organization and is also representing Raymond at the meeting.

Elders S. B. Smith and Louis R. King were the speakers at the Second Ward Sacrament meeting Sunday night. A vocal solo by Mrs. J. S. Smith and two other musicals added to a delightful program.

What with the Municipal Council meeting and the beet Growers meeting, local farmers found lots of material for discussion on the streets until the mail was distributed Thursday evening.

Good prices prevailed at the Auction Sale of Marlin Alfred's stock and machinery held at D. L. Paxman's farm Wednesday. The Beet Growers meeting kept a number of interested buyers away. J. W. Newby was Auctioneer.

George Fairbanks was the principal speaker at the First Ward Sacrament Meeting on Sunday evening. Mrs. R. S. Orgill read of her own poems, and Akira Hironaka and Lidell Roberts gave short talks, and Kay Redd bore his testimony prior to his returning to his old mission field the Mexican Mission for a six months stay.

YOUNG MEN TO TAKE UP Electric REFRIGERATION

and air conditioning. Prefer men now employed and mechanically inclined with fair education and willing to train spare time in Raymond to become experts in installation and service work. Learn while earning. Write, giving age, phone, present occupation.

UTILITIES ENGINEERING INSTITUTE

Box 551, Beverly Hills, Cal.

ATTENTION!

Protect yourself and family by buying your milk and cream from the D & B dairy. Let us give you CLEANER and BETTER MILK handled according to the health rules and regulations of the province.

Ours is the ONLY DAIRY in TOWN APPROVED and CERTIFIED by the BOARD OF HEALTH.

Our COMPLETE dairy herd was tested for T. B. by Dr. Steele official Dominion Vet, and found free from disease.

Come out and see our new CEMENT FLOORED, WELL LIGHTED DAIRY BARN, CLEAN COWS and SEPARATE DAIRY HOUSE and know for yourself how it is done.

OUR MOTTO—CLEANLINESS AND QUALITY

"You can whip our cream but you can't beat our milk." Prices—Milk 6c. per quart. Cream 40c. per quart.

D & B Dairy owned and operated by

"Dot" & "Bob" Graham.

TRIMMING or REMOVING TREES, or Fencing and Garden Work.—See Hans Jensen or call at Mrs. Boyson's. 3M15

WANTED TO BUY — A used cultivator, stiff tooth, 8 or ten foot. I.H.C. or Massey-Harris preferred.—E. E. Marjerson, Cardston, Alta. 3M22

WANTED—Two passengers to Utah and return. Will leave about March 29th, and return after General Conference. Inquire at the Recorder Office.

NOTICE—Another community Sale will be held Tuesday, March 26th. List your articles now with D. L. Paxman or the Recorder Office. Early listing is very essential, ACT NOW

D. L. Paxman is getting around again after a spell of lumbago, which kept him in bed for a week.

Two new rooms have been fitted up now in the Town Hall Basement, which makes three good rooms downstairs.

Jack Mehew has fitted up a new office in the Sugar City Motors and will use the old one for his workshop.

It looks like some Basketball playoffs for the Jacks this year if they can defeat the Aces tonight and the Printers next week. We hope they do. Those playoffs are always interesting.

Jack Newby says if you want any livestock to sell and get a good price at an Auction Sale, to have them fat. No one wants to bid on poor and unconditioned animals.

"Be sure and see 'The Little Minister'". This advice was given to us by one who has seen it, and who was loud in their praise of the production. Katherine Hepburn is always good, but her particular talent finds almost perfect expression in her part of this picture.

NEWS NOTES

John Lugos Passes

The Raymond Beet Growers Executive held a meeting Monday afternoon in the Town Hall.

Heber F. Allen of the Raymond Mercantile, is on a business trip to Eastern Canada.

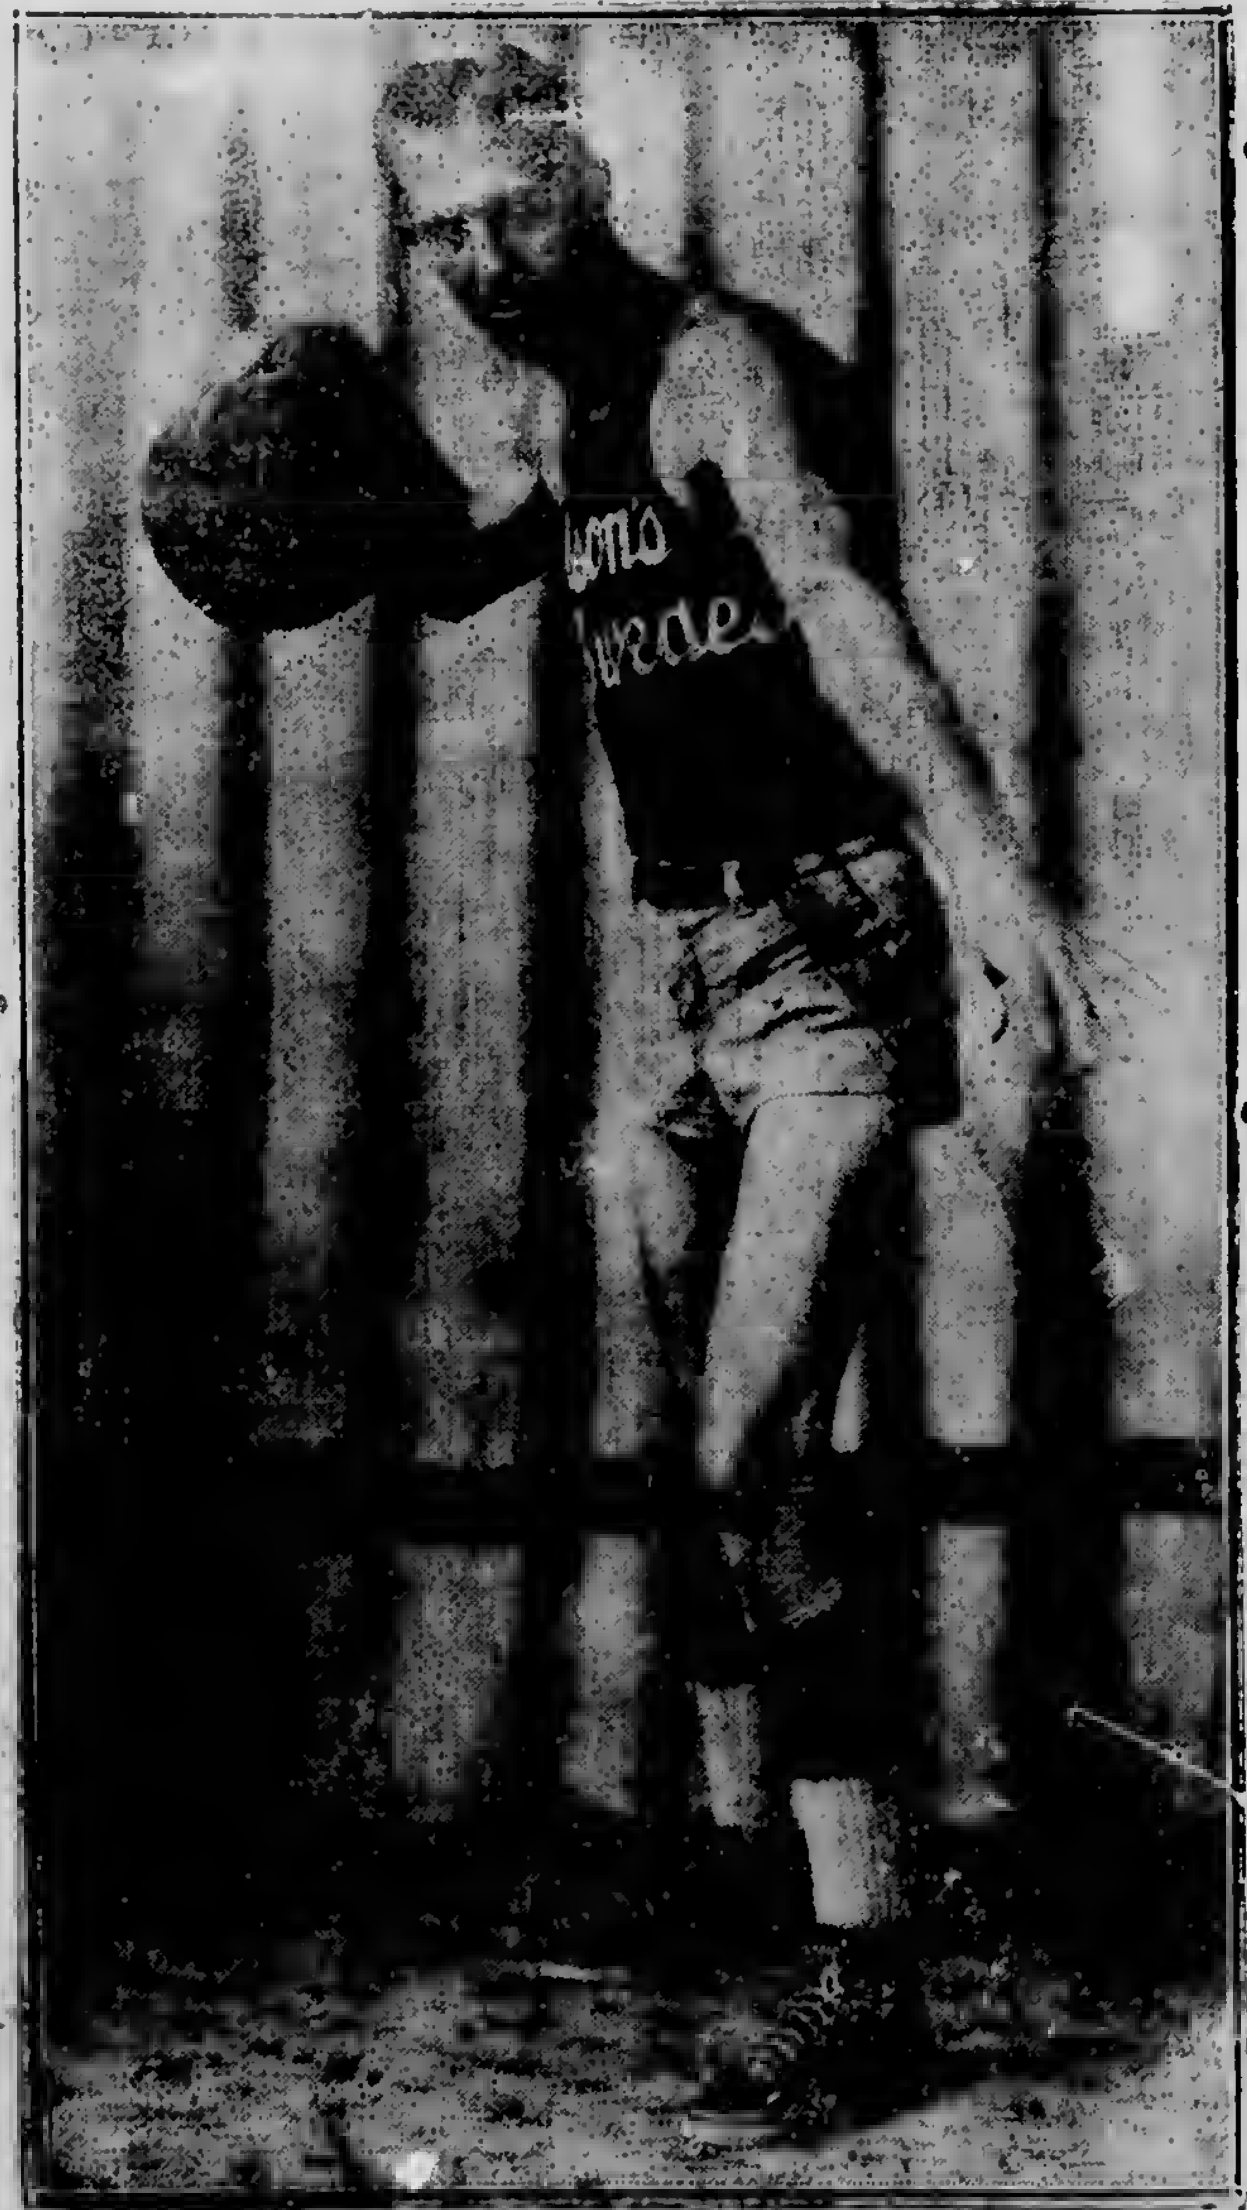

The Raymond Mercantile Co. Limited unloaded several cars of lumber and a car of brick last week.

The chinook arrived Monday and had water standing on the walks and streets by noon, with the snow disappearing rapidly.

Blazing torch of romance... in the screen presentation of the play that gave the world its greatest heart thrill—Katherine Hepburn in the "Little Minister," Friday and Saturday at the Capitol.

John Lugos, who has been on the Don H. Wall farm for the past couple of years with his family, passed away Monday night in the Lethbridge Hospital from an illness of long standing, he having spent the past couple of months continuously in the hospital. Funeral services were held Thursday in the Catholic Church, Raymond with Rev. Father McGinnis in charge.

Deceased was an immigrant from Hungary, with his family, and was a very good worker and highly respected by his acquaintances. Besides his sorrowing wife, he leaves to mourn his loss, four children, John, Margaret, Steve and Mary, the latter two attending school. The sympathy of the community is extended to the bereaved family.

Big George Campbell, 6' 8", who will play here March 27th when Olsons Swedes and the Harlemites meet.

If it's grain... Ask us!
